

Data Analyst

Location: West Point, NY, USA

Deadline Date: 06/15/2020

Education: Bachelor's degree in economics, computer science, mathematics, or other related fields.

Experience: Programming experience in STATA

Salary Range: \$50,000 to \$60,000 (Salary dependent on experience and qualifications.)

Citizenship: Must be a U.S. Citizen

The Office of Economic and Manpower Analysis and the Economics Department at United States Military Academy, West Point welcomes applications for one open Data Analyst position in direct support of our mission of conducting policy analysis for senior leaders in the Department of Defense. Data Analysts in OEMA work alongside PhD economists conducting empirical research on topics in labor and public economic fields using administrative data from government, non-profit and private sources. These include, for example, data from the Army, Department of Defense (DoD), Veterans Affairs (VA), Social Security Administration (SSA), credit bureaus, and the National Student Clearinghouse. Successful analysts are typically those who have demonstrated the ability to work with large datasets, have an appreciation for and experience with genuine empirical research, and have an interest in pursuing economics or policy research at the graduate level in the future. A completed B.S. in Economics, Computer Science, Mathematics, or a related degree is required at the time of appointment.

Interviews will be conducted in late May and early June. This is a full-time appointment to start in June 2020

Application Instructions:

Deadline for submission is June 15, 2020.

To receive full consideration, applicants must email the following materials to Dr. Richard Patterson (richard.patterson@westpoint.edu):

- Cover letter
- Curriculum vitae with at least two references who are available by phone
- Unofficial college transcript(s)
- 1-2 letters of recommendation (optional)
