NYU | STERN

Overview

The NYU Stern Department of Economics is hiring highly skilled and motivated individuals to work as full-time predoctoral research fellows for a term of at least one year.

The job will entail close collaboration on a number of new and ongoing research projects with Professors Niklas Engbom, Abdoulaye Ndiaye, Michael Waugh, and Venky Venkateswaran. The projects will cover a broad range of topics in macroeconomics and public finance, including labor markets, consumption-savings choices, development, financial frictions, and firm dynamics.

Research fellows will also be a part of the NYU Stern Economics academic community, which entails the opportunity to attend courses, seminars, and social events with PhD students and faculty.

NYU Stern provides equal employment opportunities to all employees, applicants and job seekers.

A start date of September 1, 2020, is preferred, but potentially negotiable.

Qualifications

Candidates should have a strong quantitative background, significant programming experience, and an ability to solve problems independently. A minimum of a bachelor's degree with a quantitative concentration is required.

A background in economics is not necessary, as we welcome candidates with strong quantitative skills (mathematics, computer science) who want to gain more exposure to economics.

Candidates with a strong interest in research and potential interest in graduate studies in economics are preferred. Our previous research assistants have gone on to pursue graduate studies at Harvard, Princeton, Northwestern, and Cambridge.

Benefits

- Competitive 12-month salary.
- Eligibility for NYU full-time employee benefits, including health care.
- Opportunity to enroll in courses, including undergraduate and graduate courses in economics, math, and computer science.

Applications

To apply, please complete this form. You will be required to upload:
- Cover letter describing:
    - Prior research experience
    - Interest in position
    - Programming experience and expertise
    - Name, address, and phone numbers for at least two references.
- Resume/CV
- All undergraduate and graduate transcripts.
